

Statement Regarding DC Governance

Background

Governance requirements apply to Defined Contribution (“DC”) pension arrangements, like the Defined Contribution Section within the Baptist Pension Scheme (the “DC Plan” part of the “Scheme”), to help members achieve a good outcome from their pension savings. The Trustee is required to produce an annual statement, signed by the Moderator, to describe how the governance requirements have been met in relation to:

- the default arrangement;
- the range of self-select investment options and legacy funds;
- the requirements for processing financial transactions;
- charges and transaction costs borne by members;
- an illustration of the cumulative effect of these costs and charges;
- a ‘Value for Members’ assessment;
- net returns of the investment options;
- trustee knowledge and understanding; and
- the constitution of the trustee board.

This is the Trustee’s 2024 annual report covering the period from 1 January 2024 to 31 December 2024. This statement is produced pursuant to Regulation 23 of the Occupational Pension Schemes (Scheme Administration) Regulations 1996, as amended by subsequent legislation, and associated Statutory Guidance. CM Pensions Limited acted as Moderator (Chair of the Trustee) for this period and this Statement has been signed by Chris Maggs, representing CM Pensions Limited in its capacity as Moderator, on behalf of the Baptist Pension Trust Limited (the Trustee). This Statement is available to view and download from the member access website [Broadstons Pension Scheme \(broadstone.co.uk\)](https://broadstone.co.uk) as well as from the Baptist Pension Scheme website: [Scheme Documents – Baptist Pensions](#).

In 2019 the DC Plan was authorised by the Pensions Regulator (“TPR”) as a Master Trust arrangement. By maintaining Master Trust authorisation, the DC Plan satisfies the criteria set out in TPR’s Code of Practice for authorisation and supervision of Master Trusts. The Scheme is not a ‘relevant multi-employer scheme’ as defined in regulations, since it is managed by a single Trustee Board and is not promoted to employers unconnected to the Baptist Family. Consequently, this Statement does not include information relating solely to relevant multi-employer schemes.

The Defined Benefit Section within the Baptist Pension Scheme (“the DB Plan”) was bought-out by securing annuities for the members with DB benefits on 28 November 2024. It is anticipated that the DB Plan will be formally wound-up in June 2025, leaving the Scheme as a DC-only arrangement going forwards.

This Statement should be read in conjunction with the Scheme’s September 2024 Statement of Investment Principles (“SIP”), which is shown as **Appendix C**. The changes implemented in this revised statement reflect the Trustee’s policy regarding investment in illiquid assets and remove reference to any performance-related fee structures since none exist.

Default arrangements

The Scheme is used as a Qualifying Scheme for auto-enrolment. Within the DC Plan there is a default arrangement for members who choose not to use the other options available. This is called the Ethical Default Lifestyle Fund (“the Default Fund”) – 93% of the DC Plan’s membership uses the Default Fund.

Members who were within five years of their target retirement date prior to an investment strategy change to a new default fund in 2019 remained in the legacy lifestyle default called the Lump Sum Lifestyle Fund. Approximately 3% of members remain in this fund.

Three other funds are also classified as legacy default arrangements for some members following past investment changes, where members’ self-select funds were transferred in the absence of the members expressing an alternative choice. These are:

- the L&G Global Equity Market Weights (30:70) Index Fund, switched from the L&G Global Equity Market Weights (50:50) Index Fund in May 2019;
- the L&G Diversified Fund, switched from the L&G Dynamic Diversified Fund in January 2022; and
- the L&G Low Carbon Transition UK Equity Index Fund, switched from the BMO Responsible UK Income Fund in April 2022.

In all cases the Trustee was advised that the previous funds were no longer suitable for members of the DC Plan. The Trustee believes these three legacy default funds are appropriate default arrangements for the members who were transferred into them at the time, but they will not be considered as default arrangements for the rest of the DC Plan’s membership. None of these legacy default arrangements have any lifestyle or automatic de-risking in place.

The Trustee is responsible for the Scheme’s investment governance, which includes setting and monitoring the investment strategy for the DC Plan’s default arrangements. Details of the objectives and the Trustee’s policies regarding the default arrangements can be found in the Statement of Investment Principles. The Scheme’s latest SIP, dated September 2024, covering the default arrangements is attached to this statement.

The Trustee’s primary objectives for the DC Plan are to provide members with access to:

- an appropriate range of investment options, reflecting the membership profile of the DC Plan and the variety of ways that members can draw their benefits in retirement; and
- a Default Fund option that the Trustee believes to be reasonable for those members who do not wish to make their own investment decisions. The objective of the Default Fund option is to generate returns above inflation whilst members are some distance from retirement, and then to switch automatically and gradually to lower risk investments as retirement approaches; this is called a lifestyle strategy.

In determining the investment arrangements for the DC Plan, the Trustee took into account:

- the best interests of all members and beneficiaries;
- the profile of the membership and what this is likely to mean for the choices members might make upon reaching retirement;
- the risks, rewards and suitability of a number of possible asset classes and lifestyle strategies and whether the return expected for taking any given investment risk is considered sufficient given the risk being taken;

- the need for appropriate diversification within the Default Fund strategy to ensure that both the overall level of investment risk and the balance of individual asset risks are appropriate;
- the need for appropriate diversification within the other investment options offered to members;
- the Trustee’s ethical policy, which the Trustee believes reflects the wishes of the Scheme’s members and will not contradict the long-term objectives of the members; and
- the Trustee’s investment beliefs about how investment markets work, and which factors are most likely to impact investment outcomes.

A formal strategy and performance review takes place at least every three years. The strategy was reviewed by the Investment Committee, along with the Trustee’s investment advisor on 5 March 2024 and the recommendations ratified at the Trustee Board meeting on 13 March 2024. Implementation of the review involved consideration of different asset categories and investment managers and was completed in June 2025.

The Trustee also reviews the performance of the default arrangements against its aims, objectives and policies on a quarterly basis. This review includes an analysis of fund performance and member activity to check that the risk and return levels meet expectations.

Following the strategy review in March 2024 and the performance reviews over the year, the Trustee concluded that the default arrangements were performing broadly as expected and remain consistent with the aims and objectives of the default arrangements as stated in the SIP. However, it was noted that with developments in the DC investment fund market there was a case for replacing some of the component funds that make up the Ethical Growth Fund, Ethical Diversified Fund and At Retirement Fund. These changes were implemented in June 2025.

The investment profiles of the lifestyle strategies in place during the period covered by this Statement are shown in the SIP in **Appendix C**.

In summary, the asset classes in the funds that comprise the Ethical Default Lifestyle Fund as at 31 December 2024 are set out below. It should be noted that the investment manager does have the discretion to vary the composition of the Diversified Fund from time-to-time.

Ethical Growth Fund

Asset class	Fund name	Fund allocation	Asset allocation
Listed equities	Ethical Global Equity	70%	100.0%
	Diversified	30%	
Cash			0.3%

Derisking towards Retirement

Asset allocation of the Default Fund

We have provided further details in the table below of the underlying asset allocation for a member aged 25, 45, 55 and 65 in the Default Fund, rounded to full percentage points. We have provided this information in line with statutory guidance.

Asset Class	Allocation (%) at Age 25	Allocation (%) at Age 45	Allocation (%) at Age 55	Allocation (%) at Age 65
Cash	0%	0%	0%	30%
Bonds	12%	12%	32%	46%
Gilts	0%	0%	8%	12%
Index-Linked Gilts	1%	1%	5%	8%
Corporate Bonds	5%	5%	13%	19%
Other Bonds	5%	5%	5%	7%
Listed Equities	81%	81%	61%	14%
UK Equities	5%	5%	4%	2%
Developed Equities	74%	74%	55%	10%
Emerging Market Equities	2%	2%	2%	3%
Private Equity	1%	1%	1%	1%
Infrastructure	2%	2%	2%	2%
Property / Real Estate	3%	3%	3%	4%
Private Debt / Credit	0%	0%	0%	1%
Other	1%	1%	1%	2%
TOTAL	100%	100%	100%	100%

Source: LGIM, as at 31 December 2024.

In relation to the legacy default arrangements the asset allocations are as follows (rounded to full percentage points):

L&G Global Equity Market Weights (30:70) Index Fund – Listed equities 100%

L&G Diversified Fund –	Cash – 0%
	Bonds – 40%
	Listed equities – 36%
	Private equity – 3%
	Infrastructure – 5%
	Property/real estate – 11%
	Private debt/credit – 2%
	Other – 4%

L&G Low Carbon Transition UK Equity Fund – Listed equities 100%

Lump Sum Target Lifestyle Fund –	Cash – 50%
	Bonds – 31%
	Listed equities – 13%
	Private equity – 0%
	Infrastructure – 2%
	Property/real estate – 3%
	Private debt/credit – 1%
	Other – 0%

The above L&G funds are all single asset funds and the asset allocation does not change by reference to the period to the member's target retirement age.

All the members in the Lump Sum Target Lifestyle Fund are already past their target retirement age and, subject to the investment manager having the discretion to vary the composition of the Dynamic Diversified Fund that makes up 34% of the overall fund, the asset allocation will remain largely the same.

Requirement for processing core financial transactions

Processing of core financial transactions (e.g. investment of contributions, transfers within and into/out of the DC Plan, transfer of assets relating to members between different investments within the DC Plan, and payments to members/beneficiaries) is carried out by the Scheme Administrators, Broadstone.

An error related to the payment of a transfer out was identified by the administrator in April 2024. This was investigated by the Trustee and revised processes were agreed and implemented to prevent a reoccurrence. The Trustee is satisfied with the revised processes and the statements below are made on this basis.

With the exception of one error, the Trustee is satisfied with the evidence received from the administrators that there are adequate internal controls in place to ensure that core financial transactions relating to the DC Plan were processed promptly and accurately during the Scheme year. This includes the investment of contributions, processing of transfers in and out of the DC Plan, transfers between different investments within the DC Plan, and payments to members/beneficiaries. In particular:

- the Governance and Risk Committee review the administrator's AAF 01/20 report covering controls and processes in place for dealing with core financial transactions;
- the Trustee has in place an agreement committing the administration teams to defined service level agreements ("SLAs");
- the administration team provides regular reports on their performance against these SLAs which are reviewed at each quarterly Trustee meeting. Where SLAs are not met the Trustee challenges the relevant administration team, in order to identify possible systematic shortcomings in the administration function for the DC Plan;
- the administration team has adopted the following processes to help satisfy the Trustee in relation to the good running of the administration functions:
 - appointing a named senior member of staff for the Scheme and adopting clear reporting lines within the team;
 - agreed checking and review procedures reflecting the size of a particular transaction or payment;
- the administration team reports quarterly to the Trustee including information such as:
 - detailed performance statistics, work processed, and major events over the quarter.
 - details of contribution receipts and investments such that the Trustee can monitor compliance with statutory and regulatory guidelines.
 - details of the usage of Engage, the member access website.
 - a summary of any investment decisions effected by the members.
 - a bank account reconciliation identifying any "DC funds" held in the Trustee's bank account (i.e. contributions pending investment or benefits pending settlement).
 - details of the quality of the Scheme's Common Data, measured in accordance with the Pension Regulator guidance.

During the previous Scheme year, the Trustee was not satisfied with the clarity of bank account reconciliations, and so commissioned further analysis to provide the necessary clarity. That process was completed in June 2024. Consequently, the Trustee is satisfied that in the year to which this Statement relates:

- the operating procedures, checks and control mechanisms have been adhered to and processed in accordance with the SLAs;
- there have been no material administration errors in relation to processing core financial transactions over the period covered by this statement, and
- all core financial transactions have been processed promptly and accurately.

The administration of the collection of contributions from the employers and investment of the contributions with the investment managers is carried out by Broadstone. The Trustee is satisfied that contributions are being invested promptly and accurately and the administrators provide both monthly updates and quarterly reconciliations on the timeliness of receipt of contributions collected from the employers. The Trustee has a late contribution monitoring process in place with the administrator, to identify and proactively manage any employers who fail to meet the statutory deadlines.

For any member whose employer deducts but does not pay across monthly contributions within the statutory timeframe for the first time, an amount equal to these contributions is invested on the member's behalf immediately, funded from the reserve held in the DC Plan. This ensures that the member does not miss out while corrective action is taken with the employer.

For any member whose contributions are unable to be invested due to constraints associated with a specific fund, their contributions will be invested in the Default Fund until such a time as the intended fund becomes investable once again.

Member-borne charges and transaction costs

The Trustee is required to set out the ongoing charges borne by members in this statement, which are annual fund management charges plus any additional fund expenses, such as custody costs, but excluding transaction costs; this is known as the Total Expense Ratio (TER). The TER is paid by the members and is reflected in the unit price of the funds. The funds used by the DC Plan are not subject to any performance related charges imposed by the investment fund managers.

The stated charges exclude any costs associated with the management and administration of the DC Plan as these are met by the Scheme from the employers' expense contributions.

When preparing this section of the statement the Trustee has taken account of the relevant statutory guidance.

Default arrangements

The main default arrangement for the DC Plan is the Ethical Default Lifestyle Fund ("the Default Fund"). The Default Fund has been set up as a lifestyle approach, which means that members' assets are automatically moved between different investment funds as they approach their target retirement date. This means that the level of charges and transaction costs will vary depending on how close members are to their target retirement date and in which funds they are invested. The charges over the period covered by this statement ranged for the Default Fund from 0.152% p.a. to 0.163% p.a..

For the legacy default Lump Sum Target Lifestyle Fund the level of charges and transaction costs vary depending on how close members are to their target retirement date and in which funds they are invested, noting however that all members now past their target retirement date. The charges over the period covered by this statement for members at retirement are 0.22% p.a..

For the other legacy default arrangements, the charges over the period amounted to 0.20% p.a. for the L&G Global Equity Market Weights (30:70) Index Fund, 0.26% for the L&G Diversified Fund, and 0.056% for the L&G Low Carbon Transition UK Equity Fund.

For the period covered by this statement the member borne charges for all the default arrangements complied with the charge cap.

In addition to the Default Fund, members also have the option to invest in several other self-select funds. The level of charges for all funds are listed in **Appendix A**.

The Trustee is also required to separately disclose transaction cost figures that are borne by members. In the context of this statement, the transaction costs shown are those incurred when the scheme's fund managers buy and sell assets within investment funds.

Acting on behalf of the Trustee, our advisers have obtained a full breakdown of the underlying transaction costs over the period covered by this Statement from the investment managers. The transaction costs experienced by members over the period covered by this Statement are shown in the table below:

Fund name	Transaction costs
Baptist Ethical Growth Fund (part of the Default Fund)	0.0176%
Baptist Ethical Diversified Fund (part of the Default Fund)	0.0226%
Baptist At Retirement Fund (part of the Default Fund)	0.0425%
L&G Cash Fund ²	0.0682%
L&G Dynamic Diversified Fund ²	0.0871%
L&G Diversified Fund ¹	0.0348%

L&G Over 5 Year Index-linked Gilt Fund	0.0510%
L&G Global Equity Market Weights (30:70) Index 75% Currency Hedged Fund ¹	0.0470%
L&G Ethical Global Equity Fund	0.0047%
Columbia Threadneedle Responsible Global Equity Fund	0.0832%
L&G Low Carbon Transition UK Equity Fund ¹	0.0045%
Newton Real Return Fund	0.0790%
L&G World Emerging Markets Equity Index Fund	0.0015%

¹legacy default for former self-select funds

²legacy default for former Lump Sum Target Lifestyle Fund

These illustrate the implicit cost of the difference between the execution price of a deal and the buying price at the time the order was placed and include costs such as transaction taxes and broker commissions. A negative transaction cost typically occurs when the change in market value on the day of sale/purchase more than offsets the implicit transaction costs associated with that sale/purchase.

Over a period of time, the charges and transaction costs that are deducted from a member's pension savings can reduce the amount available to the member at retirement. Illustrative examples of the cumulative effect over time of the relevant charges and transaction costs on the value of an active member's benefits, assuming their benefits are invested in the Default Fund, are included in **Appendix B**. Consideration of the statutory guidance has been taken into account in the production of these examples.

Illustration of charges and transaction costs

Over time the charges and transaction costs that are taken out of a member's pension savings can reduce the amount available to the member at retirement. The Trustee has set out in **Appendix B** illustrations of the impact of charges and transaction costs on different investment options in the DC Plan. The illustrations have been prepared in accordance with the DWP's statutory guidance on "Reporting costs, charges and other information: guidance for trustees and managers of occupational pension schemes" on the projection of an example member's pension savings.

As each member has a different amount of savings within the Scheme and the amount of any future investment returns and future costs and charges cannot be known in advance, the Trustee has had to make a number of assumptions about what these might be. The assumptions are explained below:

- the “before costs” figures represent the savings projection assuming an investment return with no deduction of member borne fees or transaction costs. The “after costs” figures represent the savings projection using the same assumed investment return but after deducting member borne fees and an allowance for transaction costs.
- The transaction cost figures used in the illustration are based on those provided by the managers over the past five years.
- The illustration is shown for the Default Fund as well as two funds from the Scheme’s self-select fund range. The self-select funds shown in the illustration are:
 - The fund with the highest annual member borne charges – this is the Newton Real Return Fund.
 - The fund with the lowest annual member borne charges – this is the L&G Low Carbon Transition UK Equity Fund.

Details of these illustrations can be found in **Appendix B**.

Investment returns

A summary of the return on each fund over the Scheme year from 1 January 2024 to 31 December 2024, net of investment charges and transaction costs is set out below:

Net of Fees Returns	Used in Default Fund?	1 Year (1 Jan 2024 – 31 Dec 2024)	3 Years (1 Jan 2022 – 31 Dec 2024)	5 Years (1 Jan 2020 – 31 Dec 2024)
LGIM AAA-AA-A All Stocks Corporate Bond Fund	No	0.9%	-3.5% p.a.	-1.5% p.a.

Value for members

The Trustee is required to consider the extent to which the investment options and the benefits offered by the DC Plan represent good value for members, compared to other options available in the market. Following the buy-out of the DB liabilities during 2024, the DC Plan has less than £100 million of assets and is therefore subject to the Detailed Value for Members Assessment requirements introduced by The Occupational Pension Schemes (Administration, Investment, Charges and Governance) Regulations 2021.

An independent assessment was completed in May 2025 in line with the Statutory Guidance.

The Trustee notes that value does not necessarily mean the lowest fee, and the overall quality of the service received has been considered in the 'value for members' assessment and consideration given to how the governance and associated costs of the DC Plan compares to other options available in the market.

The Trustee's assessment included:

- A comparison of the charges imposed on members' funds
- A review of the performance of the investment funds (after charges) in the context of its investment objectives
- The quality of the governance and administration arrangements in place

The Trustee is satisfied that the charges imposed on members' funds are competitive, relative to those available from comparable DC pension arrangements. Furthermore, with the exception of the At Retirement Fund, the past investment performance compares favourably with those of other arrangements available in the market. The Trustee has recognised that the At Retirement Fund has not performed satisfactorily and the recent investment strategy review has resulted in some changes to that fund with the expectation of improved outcomes. The Trustee is satisfied that the DC Plan's governance and administration policies are in accordance with good practice and appropriate for the arrangements in place.

Overall, the Trustee is able to confirm that in its opinion the DC Plan provides value for members.

Governance

The Trustee Board is made up of people either appointed by the Baptist Union of Great Britain ("BUGB") or nominated by the Scheme members. The process of selecting new Trustee Directors is completed in an open and transparent manner. This is managed by the Pensions Manager who prepares the candidate

profile giving consideration to the skills and experience gaps identified in the most recent assessment of Trustee Knowledge and Understanding, and the diversity of the Directors. For BUGB-appointed Directors, the profile is distributed through the Baptist network of churches and organisation to all church members and congregations. Applicants are reviewed by the Moderator and the Pensions Manager via CVs and interview. A recommendation is then made to BUGB. It has been agreed that BUGB will not appoint its own representative to the Board, to avoid conflicts of interest.

For member-nominated appointments, the profile is distributed to all members, inviting suitable nominations. There is an interview process to determine suitability. Appointment by election is then adopted if there are more candidates than vacancies. The table below shows the make-up of the current Trustee Board and those who were on the Board during 2024.

Trustee Director	Appointed by	Date of Original Appointment
CM Pensions Limited (Moderator)	BUGB	1 June 2019
Jenny Drake	BUGB	15 March 2016
Tony Pike	BUGB	15 March 2016
Paul Chilcott	BUGB	18 September 2019
Stuart Glen	Member nomination	5 March 2020
Rev Ken Stewart	Member nomination	9 March 2020

The Rev Ken Stewart is due to retire as a member-nominated director in June 2025 when the DB Plan completes wind up. Hilary Mason is due to be appointed as a DC member-nominated director following the prescribed selection exercise.

The Trustee has in place two sub-committees: an Investment Committee and a Governance and Risk Committee. The role of each sub-committee is set out in their Terms of Reference (available on request) and both sub-committees report back to the main Trustee Board at each quarterly Trustee meeting.

Members are informed of the ways in which they can provide feedback through the various communication methods employed by the Trustee:

- Members have access to the Engage site hosted by Broadstone; this provides access to their benefits as well as providing a portal for members to communicate directly with Broadstone.
- Members also have access to the Baptist Pensions website www.baptistpensions.org.uk which provides members with details of relevant contacts for enquiries and feedback.
- In addition, on all member communications (including retirement packs, member newsletters, booklets and announcements) details are provided of the various ways in which contact can be made.

If any member would like to get in touch with the Trustee or provide any feedback on the Scheme, please contact the Pensions Manager, Steve Kaney.

Knowledge and understanding

The Trustee Directors are required to maintain appropriate levels of knowledge and understanding to run the Scheme effectively. Each Trustee Director must:

- be conversant with the trust deed and rules of the Scheme, the Scheme's Statement of Investment Principles and any other document recording policy for the time being adopted by the Trustee relating to the administration of the Scheme generally; and
- have, to the degree that is appropriate for the purposes of enabling the individual properly to exercise his or her functions as trustee director, knowledge and understanding of the law relating to pensions and trusts and the principles relating to investment of the assets of occupational pension schemes.

In addition, trustees of schemes that are subject to the Climate Change Governance and Reporting Requirements in Part 1 of the Schedule to the Occupational Pension Scheme (Climate Change Governance and Reporting) Regulations 2021 must have knowledge and understanding of the identification, assessment and management of risks and opportunities relating to climate change for occupational pension schemes, including risks and opportunities arising from steps taken because of climate change.

The Trustee has measures in place to secure compliance with the legal and regulatory requirements regarding conversance and knowledge and understanding including investment matters, pension regulation and trust law. This, together with the advice available from the appointed professional advisors (e.g. investment consultants, legal advisors), means the Trustee is well placed to properly exercise its functions and run the Scheme effectively. Details of how the conversance and knowledge and understanding requirements have been met during the period covered by this statement are set out below.

The Trustee Directors' relevant knowledge and understanding is monitored throughout the year. Training and support from advisers is provided and a log of training has been collated. This is maintained by the Trustee Secretary and shows that all Trustee Board members have satisfactorily completed the Pension Regulator's Trustee Toolkit (any new members are required to do so within six months of appointment), and the Trustee Directors continue to receive training on a regular basis. The Trustee undertook a self-assessment analysis in March 2022 to identify any skills gaps on the Trustee Board and develop an ongoing, structured training programme. The Trustee skills matrix was also updated in 2022. The next assessment is scheduled during 2025.

Specific examples of training and support are:

- induction process for new Trustee Directors;
- advisors incorporating training for the Trustee Directors in the advice that they provide at both quarterly and ad hoc meetings (see below);
- quarterly meeting packs including updates from actuarial consultants and legal advisers on topical issues to ensure that Trustee Directors are aware of all relevant information and legislation in relation to the Scheme;
- any Trustee Director who determines that their knowledge and understanding is inadequate will work with the Pensions Manager, Moderator and advisers to attend appropriate training; and
- the Trustee's legal adviser ensures that the Trustee is alerted to the relevant Rules and legislation relating to all issues being discussed.

In addition, the Trustee has access to, and is conversant with, the Trust Deed & Rules, the Statement of Investment Principles and the policies and procedures relating to the administration of the Scheme. The

documents are easily accessible online through the administrators' Scheme-specific website or through the Pensions Manager.

Specific training during 2024 on DC related issues is listed below.

- Key considerations for DC investment strategy review - 18 June 2024
- Changes to Value for Members reporting requirements - 18 June 2024
- Current DC topics and direction of regulatory travel - 11 September 2024
- DC administration nuts & bolts - 11 September 2024

Master Trust Authorisation

All Master Trusts operating in the UK must be authorised by the Pensions Regulator. The Scheme's authorisation was confirmed in 2019 and it is subject to ongoing supervision from the Pensions Regulator.

Engagement with members

During the reporting period we continued to work towards a significant improvement in communicating and inviting feedback from our members. We have:

- encouraged the use of Engage to access Scheme documentation, up to date fund values and to contact the Administrator;
- requested feedback from members contacting the Administrator for their views on the experience;
- members receive an annual benefit statement which sign-posts them to where they can find this Statement to understand the default strategy, the returns on investment, the charges/transaction costs and how these represent value for members.

Appendix A – Summary of Investment Charges

The following table illustrates the Total Expense Ratio applicable to the legacy default arrangements and self-select funds available to members as at 31 December 2024:

Fund Name	31 December 2024 Ongoing Charge (p.a.)
Columbia Threadneedle Responsible Global Equity	0.74%
L&G AAA-AA-A Corporate Bond All Stocks ²	0.12%
L&G All Stocks Fixed-Interest Gilt ²	0.08%
L&G All Stocks Index-Linked Gilt ²	0.08%
L&G Cash ²	0.10%
L&G Diversified ¹	0.26%
L&G Dynamic Diversified ²	0.46%
L&G Ethical Global Equity	0.12%
L&G Global Equity 30:70 Currency Hedged ¹	0.20%
L&G Over 5 Year Index-linked Gilt	0.08%
L&G World Emerging Markets Equity Index	0.45%
Newton Real Return	0.83%
L&G Low Carbon Transition UK Equity ¹	0.06%

Source: L&G

¹ legacy default for former self-select funds

² legacy default for former Lump Sum Target Lifestyle Fund

All funds listed above are available as a self-select option with the exception of the L&G Dynamic Diversified Fund which remains due to its inclusion in the legacy default, Target Lump Sum Lifestyle Fund, only.

The following table illustrates the charges applicable to the Ethical Default Lifestyle Fund:

Blended white-label fund	Underlying funds	Allocation	Ongoing charges (p.a.)
Ethical Growth Fund	L&G Ethical Global Equity Fund	70%	
(>15 years to retirement)	L&G Diversified Fund	30%	
	Total		0.162%
Ethical Diversified Fund	L&G Ethical Global Equity Fund	30%	
(15-5 years to retirement)	L&G Diversified Fund	30%	
	L&G All Stocks Fixed-interest Gilt Fund	16%	
	L&G AAA-AA-A Corporate Bond All Stocks Fund	16%	
	L&G All Stocks Index-Linked Gilt Fund	8%	
	Total		0.152%
At Retirement Fund	L&G Diversified Fund	40%	
(<5 years to retirement)	L&G Cash Fund	30%	
	L&G All Stocks Fixed-interest Gilt Fund	12%	
	L&G AAA-AA-A Corporate Bond All Stocks Fund	12%	
	L&G All Stocks Index-Linked Gilt Fund	6%	
	Total		0.163%

Statement Regarding DC Governance (continued)

Appendix B – Illustration of impact of costs on member funds

The illustration is shown for the main default arrangement (the Ethical Default Lifestyle Fund), as well as two funds from the Scheme's self-select fund range. The self-select funds shown in the illustration are those:

- with the highest annual member borne costs – this is the Newton Real Return Fund
- with the lowest annual member borne costs – this is the L&G Low Carbon Transition UK Equity Fund

Illustration of impact of costs on the Ethical Default Lifestyle Fund, the default arrangement, in which approximately 90% of members are invested.

Projected pension pot in today's money			
Current age: 50		Target retirement age: 65	Initial pension pot: £40,000
£	Ethical Default Lifestyle Fund		
Age	Before charges	After all charges + costs deducted	
50	40,000	40,000	
55	65,756	65,318	
58	80,743	79,924	
60	90,200	89,084	
62	99,421	97,963	
64	104,573	102,718	
65	109,242	107,171	

Projected pension pot in today's money			
Current age: 25		Target retirement age: 65	Initial pension pot: Nil
£	Ethical Default Lifestyle Fund		
Age	Before charges	After all charges + costs deducted	
25	-	-	
35	46,923	46,543	
45	106,631	104,852	
50	142,335	139,320	
55	178,470	173,842	
58	197,462	191,750	
60	208,519	202,061	
62	218,897	211,645	
64	229,376	221,237	
65	234,654	226,034	

Important note: The figures stated in these projections are intended to provide an indication of the effects of future costs and charges on the build-up of funds for a typical member and should not be used for any other purpose. Values are presented in today's money terms, accounting for the impact of inflation and other assumptions in the period to retirement. Members should seek independent financial advice if they are unsure which of the investment options is most suitable for their own circumstances.

Notes on lifestyle strategy

- Monies are initially invested in the Ethical Growth Fund.
- From 15 years to 5 years before Target Retirement Age, the monies are gradually switched into the Ethical Diversified Fund.
- From 5 years before Target Retirement Age, the monies are gradually switched into the At Retirement Fund.

Illustration of impact of costs on the highest charging and lowest charging funds.

Projected pension pot in today's money				
Current age: 25		Target retirement age: 65		Initial pension pot: Nil
£	Newton Real Return Fund		L&G Low Carbon Transition UK Equity Fund	
Age	Before charges	After all charges + costs deducted	Before charges	After all charges + costs deducted
25	-	-	-	-
35	42,515	40,668	46,923	46,783
45	87,150	79,743	106,631	105,972
50	110,296	98,702	142,335	141,216
55	134,011	117,286	182,610	180,858
58	148,520	128,259	209,210	206,981
60	158,311	135,502	228,043	225,449
62	168,198	142,687	247,805	244,806
64	178,181	149,815	268,543	265,096
65	183,209	153,357	279,292	275,605

Assumptions

- A starting pot of £40,000 for the “average member” and nil for the “younger member”. This former is based on the average fund value invested in the Default Fund. Initial Qualifying Earnings of £30,000.
- Contributions from the Employee and Employer totalling 14% of Qualifying Earnings; contributions are assumed to continue up to the future ages at which the projected pension pots are shown.
- Any regular charges deducted from the funds will remain at current level.
- Future price inflation will be 2.5% each year in the period up to the member's retirement.
- The member's earnings will increase in line with price inflation, in other words 2.5% each year.
- The projected figures are then adjusted back to the current date to strip out the effects of assumed future price inflation at 2.5% each year. This is so that the values are expressed in 'today's money'.
- Investments are assumed to grow at the following rates (as set out in the SMPI member statements) before the application of charges:

Fund Name	Assumed rate of growth before charges (p.a.)
L&G Ethical Growth Fund	5.0%
L&G Ethical Diversified Fund	3.0%
L&G At Retirement Fund	3.0%
L&G Low Carbon Transition UK Equity Fund	5.0%
Newton Real Return	3.0%
